

In less than two weeks, Parker, LLP will be in Phoenix for the 35th Annual Seminar.
We look forward to seeing you there.

**Pain
Management:
Injections**
Presented by
Michael R. Parker, JD,
BS, CIFI, LPI

**Wednesday, September 11
10:10 AM - 11:50 AM
Location: Noble, Second Level**

This course looks at a growing area in the United States in pain management. In order to fully understand this area, our industry needs more education on the various parts of this field. Clinical red flags to watch out for, Orthopedic Tests, Passive v. Active Modalities, ICD 10 diagnoses, MRI's, and the various types of injections are the main topics to be discussed in this course in order to understand the how and why of protocol-schemed major care. The proposed end state is to give attendees the education and understanding needed to develop the proper investigation steps and navigate the current law that presents challenges.

Approved for CE credit in CA, FL, & TX.
